

# ISIP™ Progress Monitoring at Home

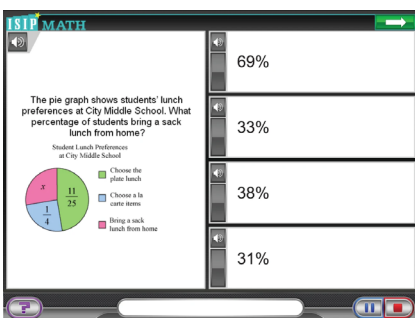

School Year 2020-2021

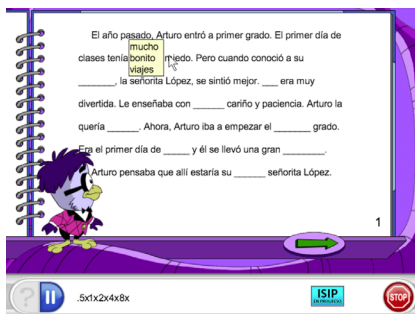

ISIP Progress Monitoring at Home is available for all students at schools and districts using Istation's Indicators of Progress (ISIP) to assess and instruct students.

ISIP will automatically assess students the first time they log in to Istation each month.

Educators can monitor progress while students use Istation at home with immediate and easy-to-use reporting. This reporting allows them to plan instruction for every student. When students take ISIP Progress Monitoring At Home, this is noted in Istation reports.

For schools with subscriptions to online instruction, ongoing progress monitoring from home allows Istation's online lessons and activities to adapt to the needs of each student. Contact Istation to learn how schools can get home access to online instruction.

Step-by-step instructions for parents, educators, and students are available at [www.istation.com/Home/EmpowerEducators](http://www.istation.com/Home/EmpowerEducators).

Or visit [www.istation.com/contact](http://www.istation.com/contact) for technical support, information on school accounts, and more.
