K-12 Standards for Mathematical Process (MP)
As stated in the Texas Essential Knowledge and Skills, "The Standards for Mathematical Process describe varieties of expertise that mathematics educators at all levels should seek to develop in their students." Each applicable Mathematical Process standard is listed below the correlation with the corresponding code, MP1-8.

Mathematical Practice 1: Make sense of problems and persevere in solving them.
Mathematical Practice 2: Reason abstractly and quantitatively.
Mathematical Practice 3: Construct viable arguments and critique the reasoning of others.
Mathematical Practice 4: Model with mathematics.
Mathematical Practice 5: Use appropriate tools strategically.
Mathematical Practice 6: Attend to precision.
Mathematical Practice 7: Look for and make use of structure.
Mathematical Practice 8: Look for and express regularity in repeated reasoning.
