

Istation Reading and Math Assessments Support Growing District

District-wide adoption with Istation grows as the year progresses.

Rural Public School District

Grades: K-12

Students: 14

Student: 7,109

Summary: Serving multiple rural communities, this growing district assessed K-5 students in reading and math using Istation's Indicators of Progress (ISIP™). The number of students assessed in reading and math grew as the year progressed. Math adoption more than doubled while the reading assessment adoption grew 56% over the year.

Opportunity: This rural district needed educational technology that could accommodate a growing student population spread out across 12 elementary campuses.

Solution: Istation Reading and Istation Math provided the district with formative assessments and adaptive curriculum that seamlessly supported the district's intervention, development, and enrichment by providing ongoing progress monitoring, supplemental instruction, real-time reporting, and more.

Results: Over the course of the school year, K-5 students assessed using Istation's formative assessment grew. Students assessed with Istation Reading increased 9.33% and students assessed with Istation Math more than doubled from 778 students to over 1,800 students.
